An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arnold Krumholtz on December 16, 2009.

The application has been amended as follows: Claims 1-4 are cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Heimberger (US Pat. No. 3,431,337) discloses a coiling system comprising a main tube shaft for forming plastic tubing into a helix, a drive means, a tube guide, and a heat source. Heimberger (US Pat No. 3,770,361) discloses a coiling system having a cooling apparatus further down a main tube shaft than a heat source. Blecher et al. (US Pat. No. 4,750,253) discloses cutting coils to preselected lengths with a cutter directly after heating and cooling (See col. 4, lines 41-47). Dijkman, Sr. et al. (US Pat. No. 5,167,891) discloses an apparatus for producing plastic coils on a main tube shaft wherein a cutter is used to cut the plastic coil on and against the main tube shaft after cooling without interrupting coiling formation. The prior art fails to disclose a coiling system having a tube guide, a main tube shaft, a heat source, a cooler, and a cutter such that the tube guide is capable of guiding a hollow plastic tube around the main

tube shaft and the main tube shaft has a first tube shaft portion with a first frictional force to assist in coiling and a second tube shaft portion with a second frictional force to assist in removal of the helically wound plastic tubing. The prior art also fails to disclose a coiling system having a tube guide, a main tube shaft, a heat source, a cooler, a cutter operable to cut preselected lengths of coiled hollow tubing against the main tube shaft by operating at preselected intervals of time, and a rotating carousel having a plurality of shafts for continuously collecting the preselected lengths of coiled tubing as they come off the main tube shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
